## KARL SCHNELL - MIXER 1500 LITERS

QUOTATION NO: Q20261115-864
DATE: 15.11.2026

# PRODUCT DESCRIPTION

**Specifications and product characteristics:**

- When producing high-quality meat products, uniform and efficient mixing is essential to achieve consistent texture and flavor. This 1500-liter paddle mixer manufactured by Karl Schnell is designed for heavy-duty industrial meat processing operations.
- With its large capacity and powerful paddle mixing system, it ensures homogeneous blending of meat, spices, and additives while preserving the structure of the raw material. The entire machine is constructed from high-quality stainless steel, guaranteeing durability, corrosion resistance, and maximum hygiene in accordance with food industry standards.
- Efficient and Reliable Operation
- The robust paddle mixing system provides thorough and even mixing without damaging the product structure. The machine is designed to handle large production volumes, making it ideal for medium to large-scale meat processing facilities.
- Its solid construction ensures stable operation with minimal vibration. The user-friendly control system allows operators to maintain full control over the mixing process.
- Easy to Clean and Maintain
- Thanks to its full stainless steel construction, the mixer is easy to clean and maintain. Smooth surfaces and accessible interior areas allow for fast and efficient sanitation, which is essential in environments where strict hygiene standards apply.
- Features
- Industrial paddle mixer
- Capacity: 1500 liters
- Fully constructed from stainless steel
- Heavy-duty and stable design
- Suitable for continuous industrial use
- Easy cleaning and maintenance
