PRODUCT DESCRIPTION

Specifications and product characteristics:

- The Schröder N55 Injector is an industrial multineedle injector designed for professional food processing operations. Equipped with 55 needles and a conveyer belt system, it ensures even injection of brine, marinades or other liquids into meat products. Its stainless steel construction provides durability and hygiene, while pressure and speed controls allow precise process adjustment. Suitable for medium to large production environments requiring high throughput and consistent results.
- Technical specifications:
- Manufacturer: Schröder
- With transport belt
- Stainless steel construction
- 55 needles
- Approximate dimensions in cm:
- Length: 240
- Width: 110
- Height: 150
- Control: pressure regulation and speed control
- Application: meat processing, injection of brine/saline into muscle products
