MEAT MIXER GRINDER SSTX114ML

QUOTATION NO: Q20261003-932

DATE: 03.10.2026

PRODUCT DESCRIPTION

Specifications and product characteristics:

- SSTX114ML is a professional mixer grinder designed for butcher shops, meat processing facilities and the production of processed meat products. The machine combines mixing and grinding functions in a single unit, allowing efficient preparation and processing of meat mixtures before grinding.
- The machine is entirely made of stainless steel (INOX 18-10), ensuring high hygiene standards, durability and easy maintenance. The monobloc construction provides a strong and stable structure suitable for continuous industrial use.
- SSTX114ML is equipped with two separate geared motors with grease bath lubrication, one for the grinding system and one for the mixing arm. The mixing arm ensures uniform blending of meat and ingredients before the grinding process, improving product consistency and quality. The machine is designed for easy cleaning and reliable operation in demanding professional environments.
- Technical specifications:
 - Model: SSTX114ML
 - Power supply: 400 V, 50 Hz (three phase)
 - Mincer motor power: 5.5 HP / 4 kW
 - Mixing motor power: 1.5 HP / 1.1 kW
 - Theoretical capacity: approx. 1400 kg/h
 - Hopper capacity: 105 L
 - Exit diameter: 114 mm
 - Grinding plate diameter: 5 mm
 - Weight: approx. 150 kg
- Features:
 - fully stainless steel construction (INOX 18-10)
 - monobloc housing
 - mixer and grinder combination
 - double cutting system
 - two separate gear motors with grease bath lubrication
 - mixing arm for uniform blending of meat mixtures
 - easy cleaning and maintenance
 - complies with CE standards
