MEAT MIXER SSPMX275MAX

QUOTATION NO: Q20261115-936
DATE: 15.11.2026

PRODUCT DESCRIPTION

Specifications and product characteristics:

- SSPMX275MAX with loader is a professional arm mixer designed for butcher shops, meat processing facilities and the production of processed meat products. The machine is intended for mixing large quantities of meat mixtures and is especially suitable for products such as sausages, salami and other processed meats.
- The machine is entirely made of stainless steel, ensuring high hygiene standards, durability and easy maintenance. The robust construction provides reliable operation and long service life in professional environments.
- SSPMX275MAX with loader is equipped with a tilting mixing bowl and removable mixing arm which allows thorough and uniform mixing of meat and ingredients. The integrated loader system allows easy loading of raw materials and containers, improving workflow and efficiency during production. The motorized tilting system allows safe and easy unloading of the mixture after the mixing process.
- Technical specifications:
- Model: SSPMX275MAX with loader
- Mixing bowl capacity: 275 L
- Mixing capacity: approx. 20–200 kg
- Power supply: 400 V, 50 Hz (three phase)
- Motor power: approx. 3 kW + 0.25 kW + 2.2 kW
- Weight: approx. 720 kg
- Features:
- fully stainless steel construction
- arm mixing system for intensive mixing
- tilting bowl for easy unloading
- motorized bowl tilting system
- removable mixing arm for easy cleaning
- integrated loader for lifting containers
- robust construction for industrial use
- easy cleaning and maintenance
- complies with CE standards
