## MEAT CHOP CUTTER SSICONE700

QUOTATION NO: Q20261115-938
DATE: 15.11.2026

# PRODUCT DESCRIPTION

**Specifications and product characteristics:**

- SSICONE700 is a professional meat chop cutter designed for butcher shops, meat processing facilities and the preparation of fresh meat products. The machine is used for cutting meat into chops and portions with adjustable thickness, ensuring consistent portioning and high productivity.
- The machine is entirely made of stainless steel (INOX 18-10), providing high hygiene standards, durability and easy maintenance. The robust construction ensures reliable operation in professional environments and allows continuous production use.
- SSICONE700 is equipped with an electric feed system and two operating speeds which allow efficient cutting of various types of meat products. The cutting thickness can be adjusted during operation, allowing precise portion control. The automatic return carriage and step by step or continuous feed system ensure consistent cutting results and improved workflow.
- Technical specifications:
- Model: SSICONE700
- Power supply: 400 V, 50 Hz (three phase)
- Motor power: approx. 2.2 kW + 0.55 kW
- Cutting speed: approx. 98–196 cuts/min
- Cutting thickness: adjustable from 0 to 80 mm
- Loading magazine: approx. 200 x 230 x 700 mm
- Weight: approx. 280 kg
- Features:
- fully stainless steel construction (INOX 18-10)
- industrial chop cutting system
- two operating speeds
- electric feed system
- adjustable cutting thickness during operation
- step by step or continuous feed system
- automatic return carriage
- easy cleaning and maintenance
- complies with CE standards
