MEAT CHOP CUTTER SSICONE1100

QUOTATION NO: Q20261115-939
DATE: 15.11.2026

PRODUCT DESCRIPTION

Specifications and product characteristics:

- SSICONE1100 is a professional meat chop cutter designed for butcher shops, meat processing facilities and the preparation of fresh meat products. The machine is intended for cutting meat into chops and portions with precise thickness control, ensuring consistent results and high productivity.
- The machine is entirely made of stainless steel (INOX 18-10), providing high hygiene standards, durability and easy maintenance. The robust industrial construction allows continuous operation in professional environments and ensures long service life.
- SSICONE1100 is equipped with an electric feed system driven by a brushless motor and offers two operating speeds for efficient processing of different types of meat. The cutting thickness can be adjusted during operation, allowing precise portioning according to production requirements. The automatic return carriage and programmable carriage travel provide accurate and consistent cutting performance.
- Technical specifications:
- Model: SSICONE1100
- Power supply: 400 V, 50 Hz (three phase)
- Motor power: approx. 1.3 kW + 2.2 kW
- Cutting speed: approx. 90–180 cuts/min
- Cutting thickness: adjustable from 0 to 90 mm
- Loading magazine: approx. 200 x 230 x 1070 mm
- Weight: approx. 305 kg
- Features:
- fully stainless steel construction (INOX 18-10)
- industrial chop cutting system
- two operating speeds
- electric feed system with brushless motor
- adjustable cutting thickness during operation
- step by step or continuous feed system
- automatic return carriage with programmable travel
- easy cleaning and maintenance
- complies with CE standards
