MEAT CHOP CUTTER SSICONE700BACON

QUOTATION NO: Q20261115-940
DATE: 15.11.2026

PRODUCT DESCRIPTION

Specifications and product characteristics:

- SSICONE700BACON is a professional meat chop cutter designed for butcher shops, meat processing facilities and the preparation of fresh meat products. The machine is specifically designed for slicing bacon, pork belly and similar meat products into uniform portions with adjustable thickness.
- The machine is entirely made of stainless steel (INOX 18-10), ensuring high hygiene standards, durability and easy maintenance. The robust industrial construction allows reliable operation in professional environments and continuous production.
- SSICONE700BACON is equipped with a hydraulic feed system that provides strong and stable product movement during the cutting process. The machine offers two operating speeds and adjustable cutting thickness during operation, allowing precise portioning depending on production requirements. The automatic return carriage and step by step or continuous feed system ensure consistent slicing performance.
- Technical specifications:
- Model: SSICONE700BACON
- Power supply: 400 V, 50 Hz (three phase)
- Motor power: approx. 2.2 kW + 0.55 kW
- Cutting speed: approx. 98–196 cuts/min
- Cutting thickness: adjustable from 0 to 80 mm
- Loading magazine: approx. 250 x 240 x 700 mm
- Weight: approx. 350 kg
- Features:
- fully stainless steel construction (INOX 18-10)
- industrial chop cutting system
- hydraulic feed system
- two operating speeds
- adjustable cutting thickness during operation
- step by step or continuous feed system
- automatic return carriage
- easy cleaning and maintenance
- complies with CE standards
