HAMBURGER AND MEATBALL FORMING MACHINE SSC/E HF

QUOTATION NO: Q20261115-942
DATE: 15.11.2026

PRODUCT DESCRIPTION

Specifications and product characteristics:

- SSC/E HF is a professional hamburger and meatball forming machine designed for butcher shops, meat processing facilities and the production of ready meat products. The machine allows automatic forming of meat portions into uniform shapes with high productivity and precision.
- The machine is made of stainless steel and food grade materials suitable for food contact, ensuring high hygiene standards and long service life. The construction on wheels allows easy movement and flexible placement in production areas.
- SSC/E HF is equipped with a forming system for hamburgers and meatballs with the possibility of stacking hamburgers up to 80 mm in height. Adjustable hamburger thickness and an integrated paper interleaver system allow efficient operation and easy product packaging. The machine is equipped with a speed variator and electronic control system for precise production management.
- Technical specifications:
- Model: SSC/E HF
- Power supply: 230 V, 50 Hz
- Motor power: approx. 0.9 kW
- Feed capacity: 40 L
- Hamburger productivity: approx. 3000 pcs/h
- Meatball productivity: approx. 6000 pcs/h
- Maximum hamburger diameter: 135 mm
- Maximum hamburger thickness: 30 mm
- Meatball diameter: approx. 25–39 mm
- Weight: approx. 160 kg
- Features:
- fully stainless steel construction
- automatic hamburger and meatball forming
- adjustable hamburger thickness
- paper interleaving system between portions
- speed variator
- product conveyor belt
- easy cleaning and maintenance
- complies with CE standards
