TREIF - FLEXON DICER

QUOTATION NO: Q20261115-968
DATE: 15.11.2026

PRODUCT DESCRIPTION

Specifications and product characteristics:

- The Treif Flexon is a professional industrial dicing machine designed for meat processors, food production facilities, and manufacturers of prepared food products. Equipped with a computer-controlled hydraulic system and variable cutting speed, it delivers precise and consistent cutting performance across a wide range of food products. The machine is constructed entirely from stainless steel, ensuring durability, easy cleaning, and excellent hygiene standards. Its quick-change cutting system allows operators to replace cutting sets without tools, minimizing downtime and improving productivity.
- Technical Specifications:
- Manufacturer: Treif
- Model: Flexon
- Type: Industrial Dicing Machine
- Construction Material: Stainless Steel
- Control System: Computer-Controlled Hydraulic System
- Cutting Chamber Dimensions: 96 x 96 mm
- Chamber Length: 550 mm
- Cutting Speed: 100 – 300 rpm
- Processing Capacity: Up to 1400 kg/h (theoretical, 32 mm cube size)
- Knife Change System: Tool-Free Quick Change (Click & Go System)
- Product Pre-Compression System: Yes
- Product Feed Mode: Pulse or Continuous Feed
- Application: Meat, cured products, cheese, and various food products
