REX - RVF 327 VACUUM FILLER WITH BUSCH PUMP

QUOTATION NO: Q20261115-971
DATE: 15.11.2026

PRODUCT DESCRIPTION

Specifications and product characteristics:

- The REX RVF 327 is a professional vacuum filler designed for accurate portioning, dosing, and filling of meat mixtures and various food products. Equipped with an integrated Busch vacuum pump, the machine efficiently removes air from the product during the filling process, helping to achieve a consistent product structure and reliable production quality.
- Its vacuum feeding system ensures gentle product handling while preserving texture and product integrity. The machine is suitable for the production of sausages, burgers, delicatessen products, and a wide range of food applications where precision, reliability, and continuous operation are essential.
- Constructed entirely from stainless steel, the REX RVF 327 meets the requirements of modern food processing facilities. Its compact design and user-friendly operation make it a dependable solution for small, medium, and large-scale production environments.
