REX - GRINDER + MIXER FI114

QUOTATION NO: Q20261115-976
DATE: 15.11.2026

PRODUCT DESCRIPTION

Specifications and product characteristics:

- Rex Grinder + Mixer is a professional meat grinding and mixing machine designed for use in the meat and food processing industry. It combines grinding and mixing functions in a single unit, providing efficient preparation of various meat products for further processing.
- The hopper, worm housing, worm, and main machine structure are manufactured from stainless steel, ensuring excellent hygiene, durability, and easy maintenance. The main switch and control system are integrated into the machine housing for safe and convenient operation.
- The machine is equipped with an electrically interlocked safety guard and a quick-release system for the worm and cutting set, allowing easy cleaning and servicing. The cutting plate diameter of 114 mm ensures efficient processing performance for demanding production environments.
- Technical Specifications
- Manufacturer: Düker Rex
- Machine Type: Grinder + Mixer
- Cutting Plate Diameter: 114 mm
- Construction Material: Stainless Steel
- Safety System: Electrically Interlocked Safety Guard
- Control System: Integrated Push-Button Controls
- Application: Grinding and Mixing of Meat and Food Products
