ITEC - STAR CLEAN 23871 HYGIENE BARRIER

QUOTATION NO: Q20261115-979
DATE: 15.11.2026

PRODUCT DESCRIPTION

Specifications and product characteristics:

- ITEC Star Clean 23871 is a professional hygiene station designed to control personnel access to production areas in the food processing industry. The system provides automatic cleaning and disinfection of footwear, ensuring high hygiene standards before entering production zones.
- The unit uses rotating brushes to effectively clean and disinfect the soles and sides of footwear during passage. Automatic sensor activation ensures simple, safe, and hands-free operation.
- Constructed from high-grade stainless steel, the station offers durability and reliable performance in demanding industrial environments. It is ideal for food processing, meat, dairy, and pharmaceutical facilities where strict hygiene standards are required.
- Technical Specifications
- Manufacturer: ITEC Hygiene / Frontmatec
- Model: Star Clean 23871
- Type: Footwear Cleaning and Disinfection Station
- Material: Stainless Steel (Inox)
- Power Supply: 400 V, 3N/PE, 50–60 Hz
