ITAL FORM - VACUUM PACKING MACHINE SV-400

QUOTATION NO: Q20261115-988
DATE: 15.11.2026

PRODUCT DESCRIPTION

Specifications and product characteristics:

- The Ital Form SV-400 commercial free standing chamber vacuum packing machine is engineered for high-demand processing environments such as butcher shops, meat plants, restaurants, and catering central kitchens. Powered by a heavy-duty 20 m³/h vacuum pump with a 1.2 kW motor, the unit pulls rapid cycles and consistently high vacuum levels to guard against oxidation, freezer burn, and flavor loss.
- Its 400 mm sealing bar delivers a wide, airtight 10 mm seal that prevents leakage even with moisture-rich products. The internal chamber measures 436 x 420 x 75 mm, allowing operators to easily pack larger cuts of fresh meat, whole cured meats, portions of cheese, or multiple pouches per batch. Built with a rigid free standing chassis weighing 70 kg, it provides dependable stability under continuous workloads and operates on a standard single-phase 220V 50-60Hz electrical supply.
- Manufacturer: Ital Form
- Model: SV-400
- Device Type: Free standing chamber vacuum packing machine
- Pump Capacity: 20 m³/h
- Pump Power: 1.2 kW
- Sealing Length & Width: 400 x 10 mm
- Chamber Dimensions (LxWxH): 436 x 420 x 75 mm
- Overall Dimensions (LxWxH): 549 x 490 x 453 mm
- Power Supply: 220 V / 50-60 Hz
- Net Weight: 70 kg
- Application: Butcheries, meat processing facilities, commercial kitchens, delis, restaurants
