ITAL FORM - VACUUM PACKING MACHINE SV-600

QUOTATION NO: Q20261115-990
DATE: 15.11.2026

PRODUCT DESCRIPTION

Specifications and product characteristics:

- The Ital Form SV-600 industrial free standing chamber vacuum packing machine represents the highest-capacity solution in its line, engineered for heavy-duty meat processing plants, wholesale fish and cheese suppliers, and high-output commercial production hubs. Driven by a powerful dual-pump setup of 2 x 20 m³/h powered by a 1.2 kW motor, this machine delivers rapid evacuation times, streamlined workflow, and deep, consistent vacuum levels under continuous daily operation.
- A standout asset of the SV-600 is its extra-long 600 mm sealing bar with a heavy-duty 10 mm seal width, which accommodates oversized vacuum bags or facilitates multi-bag packaging in a single cycle to maximize throughput. The extra-deep internal chamber measuring 630 x 630 x 95 mm easily handles large primal cuts of meat, whole sides, large wheels of cheese, and whole poultry. Engineered with a rugged industrial framework weighing 190 kg and overall dimensions of 760 x 710 x 1000 mm, it operates on a standard single-phase 220V 50-60Hz power supply to combine extreme stability with accessible installation.
- Manufacturer: Ital Form
- Model: SV-600
- Device Type: Industrial free standing chamber vacuum packing machine
- Pump Capacity: 20 x 2 m³/h (dual-pump system)
- Pump Power: 1.2 kW
- Sealing Length & Width: 600 x 10 mm
- Chamber Dimensions (LxWxH): 630 x 630 x 95 mm
- Overall Dimensions (LxWxH): 760 x 710 x 1000 mm
- Power Supply: 220 V / 50-60 Hz
- Net Weight: 190 kg
- Application: Meat packing plants, slaughterhouses, wholesale fish markets, cheese producers, high-volume production facilities
