PRODUCT DESCRIPTION

Specifications and product characteristics:

- The Poly Clip FCA 3430 automatic double clipping machine sets the gold standard for high-capacity, reliable production of sausages and cured meats. Manufactured by the globally renowned Poly-clip System, this machine achieves an impressive speed of up to 200 cycles per minute (depending on portion size and casing type), ensuring maximum efficiency for your production line.
- Highly versatile, it is engineered to work seamlessly with a wide variety of casings, including plastic, collagen, cellulose, and natural casings. It accommodates a caliber range from 24 to 90 mm, and can process up to 120 mm for specific plastic casings. The intuitive touch screen interface allows operators to easily set and adjust operational parameters. The unit is designed for flawless synchronization with various vacuum fillers and offers the possibility of integrating an automatic loop dispenser, significantly streamlining the preparation of products for hanging and smoking.
- Technical Specifications:
- Manufacturer: Poly-clip System
- Type: Automatic double clipping machine
- Capacity: Up to 150 - 200 cycles per minute (depending on portion and casing)
- Caliber Range: 24 – 90 mm (up to 120 mm for specific plastic casings)
- Casing Compatibility: Plastic, collagen, cellulose, and natural casings
- Installed Power: 2.8 kW
- Voltage: 400 V / 50 Hz / 3-phase
- Dimensions (LxWxH): approx. 1200 x 1445 x 2015 mm
- Weight: approx. 570 - 590 kg
- Control: Intuitive digital Touch Screen
- Features: Synchronization with vacuum fillers, optional automatic loop insertion for hanging
