PRODUCT DESCRIPTION

Specifications and product characteristics:

- Professional vacuum machine Multivac A300/42 is designed for vacuum packaging and hermetic sealing of food products in butcher shops, restaurants, processing plants, supermarkets and professional kitchens. This model is an ideal solution for users who require reliable operation, high packaging quality and extended product shelf life in daily professional use.
- The vacuum system removes air from the packaging, preserving freshness, quality, aroma and product structure. The machine is suitable for packaging meat, cured meat products, cheese, fish, ready meals and many other food items.
- Model A300/42 is equipped with a 450 mm sealing bar that ensures secure and strong sealing of various vacuum bags and packaging materials. The mobile construction allows easy movement of the unit and flexible use within the workspace.
- The stainless steel body ensures long service life, high hygiene standards and easy maintenance. Stable industrial construction makes this model an excellent choice for professional use.
- Technical specifications:
 - Machine type: Vacuum machine
 - Manufacturer: Multivac
 - Model: A300/42
 - Material: Stainless steel
 - Sealing bar length: 450 mm
 - Power: 2.7 kW
 - Power supply: 3 Ph
 - Construction: Mobile
 - Application: Vacuum packaging and sealing
 - Use: Butcher shops, restaurants, food processing, professional kitchens
 - Operation: Fast, efficient and reliable
 - Maintenance: Easy and simple
